## **Henderson Joins Technical Innovation As Business Development Manager**

NORCROSS, GA, February 12, 2010 — Technical Innovation, one of the southeast's leading providers of digital media technology and collaborative communication solutions, is pleased to announce that Peggy Henderson has joined their Integrated Solutions Group as business development manager.

Ms. Henderson will be responsible for increasing the client base in multiple vertical markets as well as expanding the company's market brand as an industry leader in integrated video-centric technologies.

Peggy brings more than 20 years of industry experience in the commercial construction industry. She has served on multiple boards of directors and is active in a number of associations including the Atlanta chapter of CoreNet Global, for which she currently serves on the executive board. Her solid industry experience will enhance Technical Innovation's value proposition in unified communications and collaboration solutions.

"Peggy's experience in marketing and business development provides an unparalleled avenue for increased market awareness within the commercial design and construction industry", noted Merrie West-Davis, regional sales director for Technical Innovation, "and we are excited to have added her deep industry knowledge and experience to our team."

Henderson added, "Technical Innovation has such a strong history of providing productivity-enhancing solutions in combination with unmatched customer support and service. I look forward to helping extend our reach into new and expanding markets."

### **ABOUT TECHNICAL INNOVATION, LLC**

Technical Innovation focuses on providing video-centric communication solutions to corporations, state and federal government agencies, universities, professional organizations, and the church market. As an experienced audio/video systems designer as well as a leading design-build audio-video system integrator, Technical Innovation is uniquely positioned to provide customers with exactly the services they require, from comprehensive design to turn-key design-build services, including services such as custom software development, integration, project management, training, and ongoing customer support. For more information about Technical Innovation, visit the company web site at [www.Technical-Innovation.net](http://www.Technical-Innovation.net) or contact James Fox, Director of Marketing, at 770-441-5201.
