**Technical Innovation Authorized to Deliver Polycom
Videoconferencing Technology to Registered Federal Buyers
through Immix Group's GSA Contract**

NORCROSS, GA, August 27, 2009 — Technical Innovation, one of the southeast's leading providers of digital media technology solutions, is pleased to announce that they have been recently authorized to participate in Polycom's GSA contract administered through their contact holder, Immix Group (GSA contract number GS-35F-0330J).

The selection of Technical Innovation by Polycom recognizes Technical Innovation's years of experience and expertise in the world of video teleconferencing, as well as Technical Innovation's long-term focus on the federal market space.

"We're pleased that we've added the Polycom line to our extensive list of products and services available to federal agencies through GSA contracts," noted Kevin Powers, Technical Innovation Managing Partner. "This allows us to bring a wider range of videoconferencing options to the table, further strengthening our position with federal customers."

Technical Innovation also maintains their own GSA contracts: GS-03F-0010R (Schedule 58) and GS-35F-0512T (Schedule 70).

ABOUT TECHNICAL INNOVATION, LLC

Technical Innovation focuses on providing video-centric communication solutions to corporations, state and federal government agencies, universities, professional organizations, and the church market. As an experienced audio/video systems designer as well as a leading design-build audio-video system integrator, Technical Innovation is uniquely positioned to provide customers with exactly the services they require, from comprehensive design to turn-key design-build services, including services such as custom software development, integration, project management, training, and ongoing customer support. For more information about Technical Innovation, visit the company web site at www.Technical-Innovation.net or contact James Fox, Director of Marketing, at 770-441-5201.
