FOR IMMEDIATE RELEASE

Technical Innovation Moves to Larger Facilities to Accommodate Needs of Growing Number of Memphis-area Clients

MEMPHIS, Tenn. July 25, 2006 — The Memphis Branch of Technical Innovation, a leading provider of strategic visual communications solutions to corporate, educational, medical, and government markets, has relocated its offices to 1680 Century Center Parkway in northeast Memphis. The Memphis branch opened in December of 2005 and includes major Memphis businesses and organizations among its clients.

“We have experienced significant growth since we opened our doors in Memphis,” said David Berndt, regional manager. “Our new offices give us the additional space and facilities we need to provide our customers in the Memphis area with expert design-build and support services for audio-video projects of virtually any size.”

The Memphis office of Technical Innovation offers a full range of audio-video services for a variety of projects including audio-video- and multimedia-enabled conference rooms, audio-video-capable auditoriums, interactive training facilities, video-enabled command/control centers, and IP-centric video distribution networks. The Memphis team of knowledgeable industry professionals includes sales engineers, design engineers, integrators, technicians, installers, customer service representatives and administrative and support personnel.

Technical Innovation in Memphis can be reached by phone at 901-345-5971. The new Memphis Technical Innovation office is located at 1680 Century Center Parkway, Suite 10, Memphis, TN 38134.

ABOUT TECHNICAL INNOVATION
